

Manufacturer of Brass Inserts &
Precision Turned Components

About Us

Leading Manufacturers of Brass Inserts & Brass Turned Component

We have 100% satisfied clients globally

Established in 1990, Shreeji Brass Industries has maintained consistent growth, catering to a wide array of industrial sectors including Electrical & Electronics, Automobiles, Aerospace, Marine, Telecommunication, and Hardware. Our products are designed to meet the unique requirements and exact specifications of each sector. With sophisticated manufacturing facilities and a team of highly qualified, motivated, and experienced staff in production and sales, we strive to exceed our customers' ever-growing expectations for quality and service.

Our company has the same motive since the instigation that is to provide an unbeatable quality range of the brass inserts and components to give industries way better alternative for their brass product needs at the most competitive rates that ensures the highest level of safety, reliability and unfailing performance and promote the growth of the respective industry. The company is laden with the well versed professionals in conjunction with the contemporary machinery, empowering the organization to produce a huge volume of the brass inserts and turned components in a most précised and timely manner.

Our Mission

Pursuing leadership in our industry by supplying products of exceptional quality, fostering collaboration with customers to drive cost reduction, and intensifying our commitment to sustained growth.

Our Vision

Our aspiration is to become the preferred company for both our valued customers and dedicated employees. We aim to deliver inventive solutions that guarantee stability and long-term success.

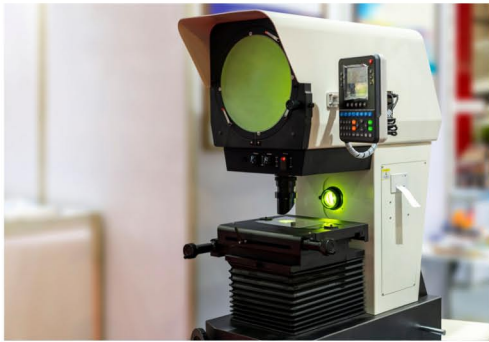

At Shreeji Brass Industries, we uphold the highest quality standards across our operations. Our quality department is equipped with both conventional and advanced measuring instruments to meet various quality standards required by different industries. To maintain the utmost level of excellence, our dedicated quality control team maintains a vigilant watch over the products throughout their journey, from the initial production stages to the final dispatch. By continuously monitoring and assessing the products, as well as analyzing user requirements, we are able to guarantee that our customers' needs are not only met but consistently surpassed. This meticulous approach, coupled with our strict adherence to quality control procedures, instills confidence in our customers, knowing that each and every piece has undergone thorough inspection and scrutiny.

We are fully committed to providing the best quality products. Every product we supply is manufactured under strict quality control and in accordance with ISO 9001 quality control system. We have extensive engineering knowledge and technical know-how to ensure high precision in the mass production of each product.

Modern & Innovative Manufacturing Unit

We prioritize excellence through our state-of-the-art in-house manufacturing facility, equipped with cutting-edge machinery and operations leveraging innovative technologies. The industrial landscape boasts the latest and ultra-modern automatic equipments that defines the pinnacle of technological advancement, managed by a team of highly experienced and skilled staff dedicated to producing materials of controlled quality

— Brass Moulding Inserts

We are a leading molded insert manufacturing company, providing a wide range of standard and non-standard inserts in a variety of materials, sizes, types, and quantities. We use high grade raw materials to design and manufacture high quality molded inserts as per the specifications.

— Brass Hex Inserts

We are a leading hex insert manufacturer, providing a wide range of standard and non-standard inserts in a variety of materials, sizes, types, and quantities. As reputed insert manufacturing company, we use high grade raw materials to design and manufacture high quality hex inserts as per the specifications. To meet all simple to complex industrial or commercial applications, we also provide custom hex inserts as per custom design / drawing / sample / dimension specification. There are a variety of insert shapes available, such as rectangular inserts, round inserts, hexagonal inserts, triangle inserts, pentagonal inserts, octagonal inserts, and custom shapes.

— Brass Press-In Inserts

We are a leading press-in insert manufacturing company, providing a wide range of standard and non-standard inserts in a variety of materials, sizes, types, and quantities. The simplest press-in inserts typically consist of an internal thread with a diamond knurl on the outer diameter, leaving a short length smooth. A partial slit runs the length of the knurls, allowing a degree of elastic deflection inward. A flange on the head side can greatly improve pull-through strength while straight knurls can help resist torque-out.

— Brass Heat Ultrasonic Inserts

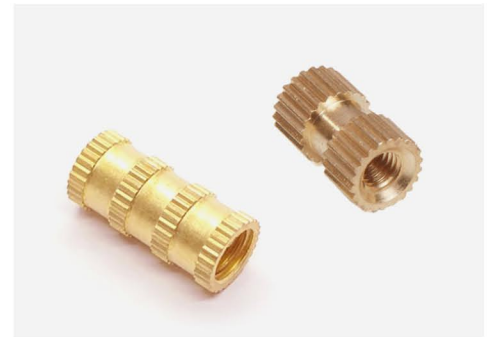

We are a leading ultrasonic insert manufacturing company, providing a wide range of standard and non-standard inserts in a variety of materials, sizes, types, and quantities. We use high grade raw materials to design and manufacture high quality ultrasonic inserts as per the specifications. To meet all simple to complex industrial or commercial applications, we also provide custom ultrasonic inserts as per custom design/ drawing/ sample/ dimension specification.

— Brass Threaded Inserts

We are a leading threaded insert manufacturing company, providing a wide range of standard and non-standard inserts in a variety of materials, sizes, types, and quantities. We use high grade raw materials to design and manufacture high quality threaded inserts as per the specifications. To meet all simple to complex industrial or commercial applications, we also provide custom threaded inserts as per custom design/ drawing/ sample/ dimension specification.

— Brass Straight Knurled Inserts

We are a leading straight knurled insert manufacturing company, providing a wide range of standard and non-standard inserts in a variety of materials, sizes, types, and quantities. We use high grade raw materials to design and manufacture high quality straight knurled inserts as per the specifications. Apart from straight knurled inserts, we are also providing diagonal knurling inserts, circular knurling inserts, diamond knurling inserts, cross knurling inserts, round knurling inserts, flat head knurling inserts, hex knurling inserts, and custom knurling inserts.

— Brass Special Inserts

We are a leading threaded insert manufacturing company, providing a wide range of standard and non-standard inserts in a variety of materials, sizes, types, and quantities. We use high grade raw materials to design and manufacture high quality threaded inserts as per the specifications. To meet all simple to complex industrial or commercial applications, we also provide custom threaded inserts as per custom design/ drawing/ sample/ dimension specification.

— Brass Electrical Components

We are manufacturing all Kinds of Brass Electrical Components, Brass Electrical Parts and Brass Electrical Fittings like Electrical Plug Pins, Sockets Pins, Brass Neutral Links, Brass Terminal Block, Brass Connectors, Brass Contacts and more. Brass Electrical Components are consumed in various applications like Toggle Switches, Modular Switches, Switchgears, Fuse Switches, Plug Pins & Sockets and many Electrical & Electronics Equipment or Parts.

— Brass Turned Components

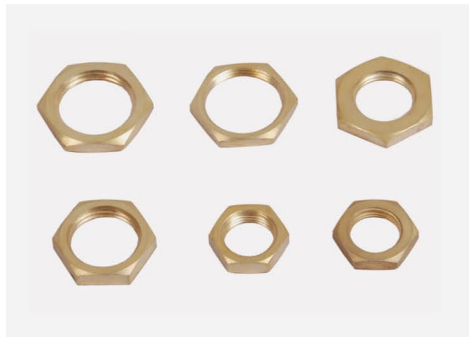

We are engaged in offering a wide range of Brass Turned Components to our clients at a reasonable cost. Our turned components are made using quality raw material such as high and fine grade brass to assure quality and reliability. We manufacture all types of Brass turned components depending upon client's requirement for application in any industry. The range of Brass Turned Components find wide application in machine building, automobile, hydraulics and general engineering industry.

— Brass Auto Parts

We are committed to manufacturing optimum quality and a wide range of Brass Auto Parts as per customer's specifications. Our brass auto parts are commonly used for different automobile and automotive applications. The range of Brass Auto Parts can also be used freely for different industrial application from automobiles to construction industries. Our experts make sure that our products suit perfectly to your complex project requirements. The Automobile Components are made of superior grade brass and other raw material in different sizes and range to meet the exact demand of our customers.

— Brass Hex Nuts

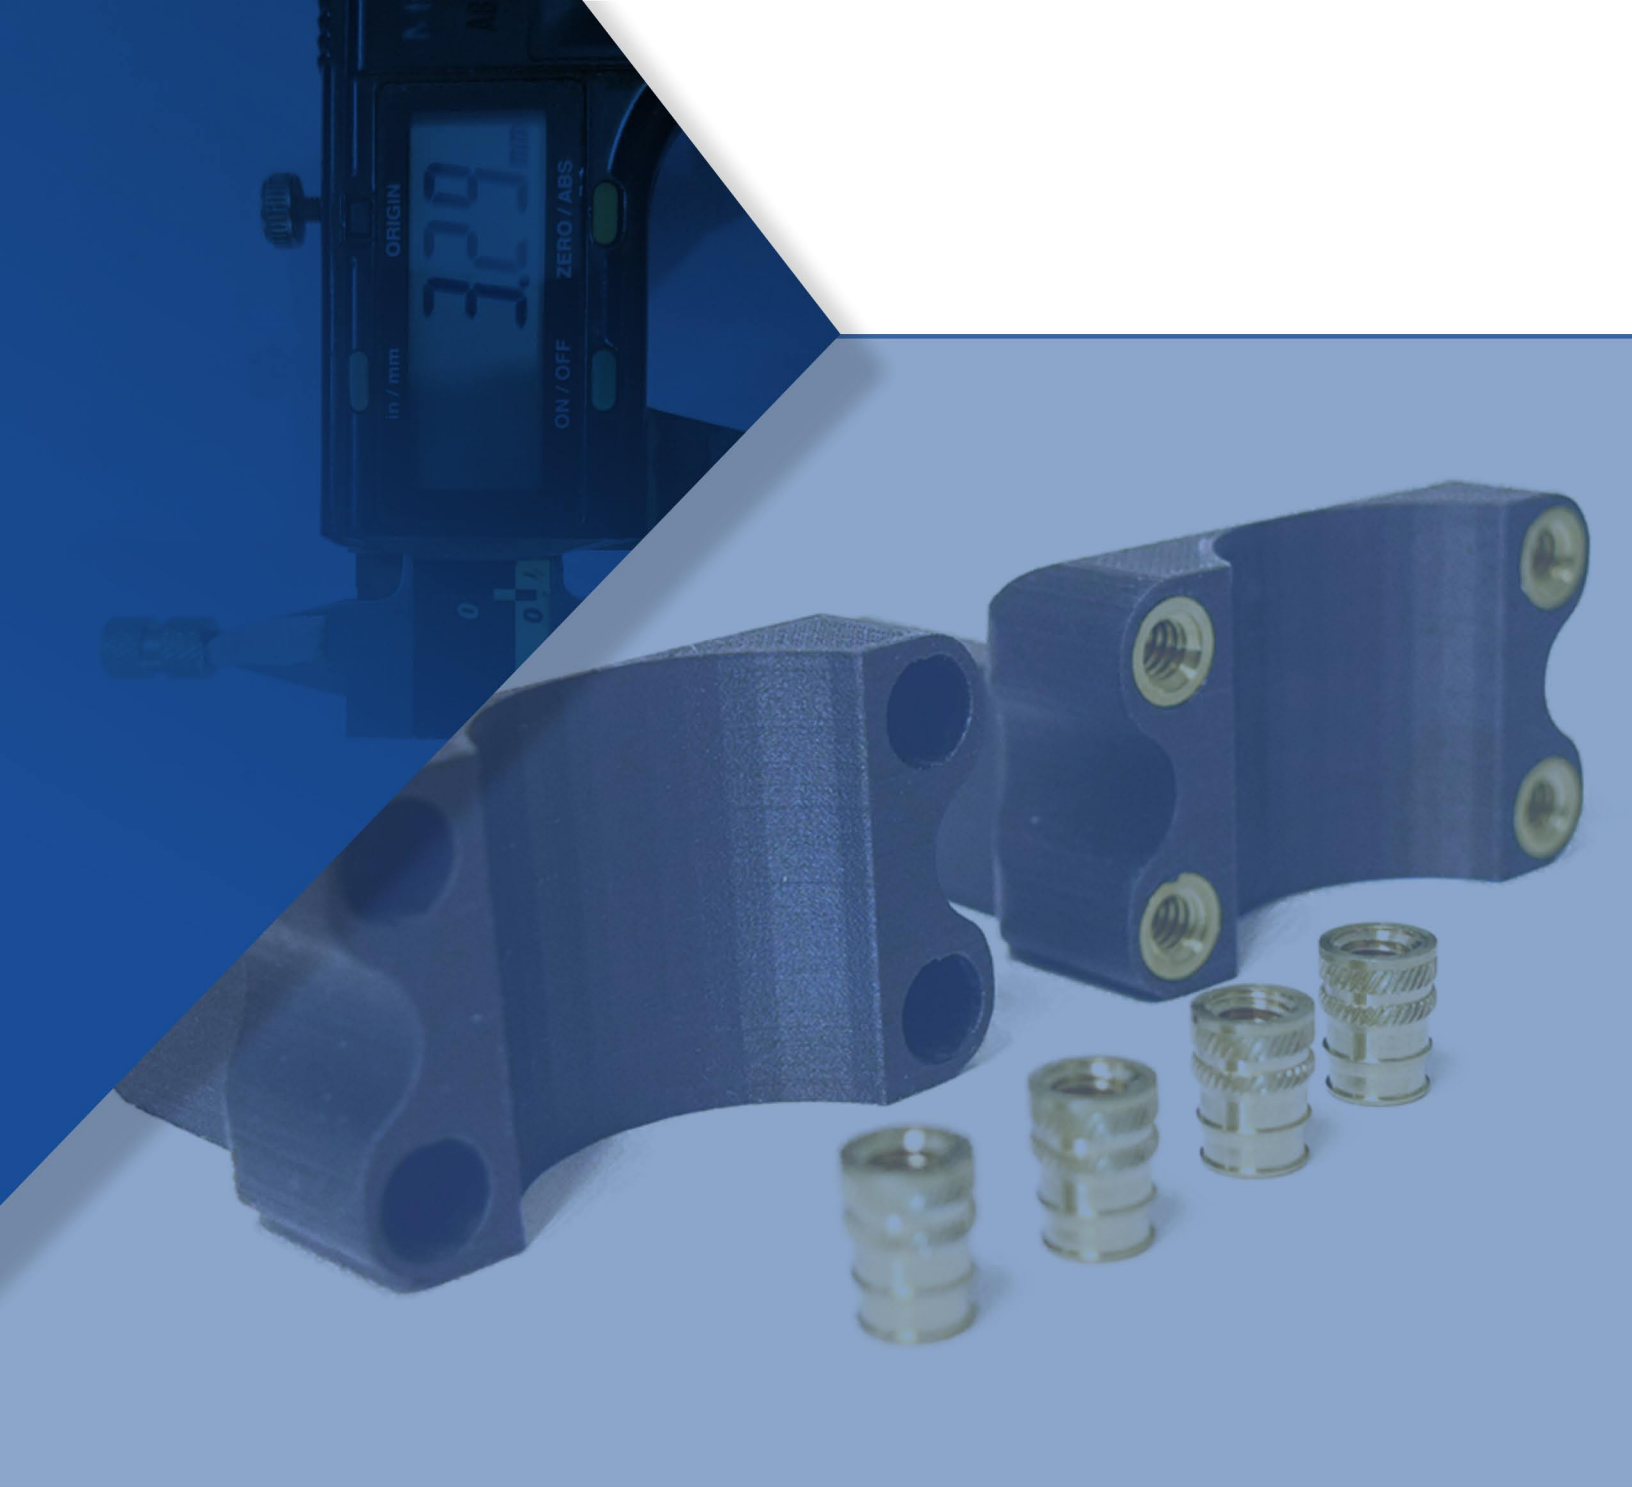

We are counted one of the most prominent manufacturers and exporter of Brass Hex Nut. This nut is engineered at our unit using premium raw metals which are obtained from the authentic vendors of the market with the aid of advanced technology and high end machines. Our offered product is suitable to be applied on any type of machine for tight & durable fitting. This Brass Hex Nut is available with us in various specifications as per the variegated needs of our customers.

— Brass Customized Parts

We are listed at the top in the list of the eminent Customized Brass Components Manufacturers & Exporters from India. The array of the Brass Customized Components includes all kinds of brass components which are used in various industries. The Brass Customized Parts are manufactured as per customer's specifications and requirements on the basis of drawing and sample. We manufacture all brass customized components in $\pm$ tolerance.
